

We work on a treasure

Water does not just mean life, it is also a treasure mankind must take care of. Working with Water is in the focus of our work.

In 1962 Hornung Wassertechnik GmbH was founded as a personal undertaking in fields of electrical and mechanical engineering. It was continued in 1979 as limited company (GmbH). Since then Managing Director Karlheinz Hornung expanded the company profile continuously.

Apart from erecting complete water supply systems, sewage treatment plants and pump stations for pure water and sewage we do have the experience of more than 4000 successfully completed projects and can offer qualified services as described below.

All about water

We offer the services based on a sales cooperation with Europe's major manufacturer of pumps: KSB.

Of course, all equipment needed is available – factory buildings with specialised workshops, crane facilities, tools, extensive spare part warehouse and service vehicles.

Around 50 highly motivated and skilled employees would like to demonstrate their knowledge and experience in your projects.

If you have a problem or find an issue we didn't mention, please do not hesitate to contact us. We are sure, that we can find a solution for you. Probably the best solution.

Plant construction for water and sewage

Machines and electrotechnical equipment:

pump stations of all kind,

e.g. pressure or propeller pump stations, booster stations

sewage pump stations,

digestion tank equipment

storm water tank with overflow
complete sewage treatment plant for up to 100.000 PT
water works,
water treatment plants
and a lot more.

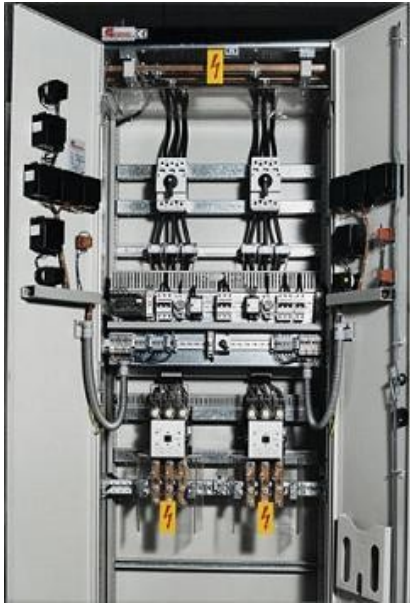

Pipeline construction steel works

Stainless steel - steel – plastics

Planning and construction of pipelines,
assembly of pipe bridges, steel constructions,
repair and reconstruction of scraper and scraper bridge,
welding (WIG, MIG/MAG, Electric),
construction with AutoCAD,
service, assembly, modernisation and overhauling

**Electrical Engineering:
Service of Electrical Devices**

E-Check
Preventative services and installations

**Pumps:
Sale, service, overhauling of pumps**

Pumps of all types and brands,
low pressure centrifugal pumps, multistage high pressure centrifugal pumps, sewage
lifting facility, stirring units, pump for special applications, booster stations,
24 hour emergency service.
